

Rockland Fire Department  
360 Union St  
Rockland, MA 02370

**The town of Rockland is conducting a program that will allow residents and businesses to adopt a fire hydrant. The goal is to get 5' reflective hydrant markers on every fire hydrant in the town. Rockland needs over 600 markers. The markers are fiberglass and will be maintained by the water department. This program is being run with the approval of the fire department, the water department, and the board of selectmen. A list of individual and business owners will be posted to recognize all those willing to contribute. Your help is greatly appreciated.**

Once a group of orders have been placed, the Fire Department will locate the adopted hydrants and place the reflective markers. In the event there are multiple requests for marking the same hydrant, we will place the marker on one of the many critical hydrants that we have in town that may be overlooked. We will notify residents or businesses of our placement once the marker is installed.

**This program is made possible by the Hy-Viz Company, Rockland Fire Department, and the local support of residents and businesses of Rockland.**

*Thank you for your support!*
